Syllabus - Diversity Module:
Focus on Diversity & Pedagogy in the Online Environment

Learning Outcomes:
By the end of this module, you will be able to:

- draft your own working definition for diversity as a benchmark
- interpret the content of a professional document on diversity standards on cultural competency
- evaluate online library training to assess the extent to which it satisfies the ALA/ACRL Diversity Standards
- reflect on what you, yourself, bring to the learning scenario
- collect resources to help you reflect on what your colleagues and learners bring to the learning scenario
- refine your instructional plans to be attentive to diversity by structuring learning to fit a variety of learning styles
- incorporate the principles of Universal Design for Learning in creating your online learning

About this course:

- This course takes place within the Moodle Learning Management System (LMS) hosted by WebJunction.org. If you need help navigating in Moodle, make sure you have gone through the Orientation Module (the first in the D4L series).
- In Moodle, there is a workbook for this module that you can download. You can save it to your device to edit it with a word processor, or print it out to write in it by hand. This gives you one document in which to store all your work throughout this module, to save for your portfolio at the end.
- There are no official due dates, so you can go through the content at your own pace. However, we have found that many students find the weekly structure helpful to keep them on track.

Revised 6/4/2017
• This module has been designed to take place over 4 weeks, like most modules of the Design for Learning program. If you start at the beginning of the month, you will be more likely to find other students going through the discussion forums at the same schedule.

• Each week, most content is shared in the form of a lesson. This format allows you to easily go through all content in a linear fashion. However, you can return later to review any content, in any order, using the menu within each lesson (on the side or below, depending on your device).

• In the Design for Learning program we strive to actively support a wide range of learning styles and abilities. As such, we have applied the principles of Universal Design for Learning to this course. If you would like to suggest additional alternative formats that you think we should provide, especially related to needs for specific accommodations, please contact us at d4l@scrlc.org.

Required Assignments:

• Required activities for this module will have a check box to the right when you view them on the main course page. The system will automatically check them off as you complete them.
• Go through the lesson for each week, including challenge and reflection questions.
  o Challenge questions in each lesson are checked automatically, and each correct answer earns 1 point. In some cases, if you are incorrect, you will be prompted to review the relevant information and try the question again.
  o Reflection questions are an opportunity for you to apply the content to your own situation in a short statement. You will enter these reflections in a workbook for the module, and you may want to share some parts of your reflection in the discussion forums.
  o Each lesson will be marked as completed if you attempt all the questions, regardless of your “score.”

• Assignments 1-4 - Evaluating Existing Instruction, Revised Introduction, Your Checklist, Revising Your Instructional Design Plan
  o Each of these assignments will have an associated section in the workbook, and a forum discussion where you can attach your work in progress, discuss your work, ask questions of your peers, and

Revised 6/4/2017
respond to your peers.

- Each forum discussion will be marked as completed once you post about your own project and reply to someone else’s post.

Once all of these required activities have been automatically marked as completed, you will be eligible to receive a certificate of completion for the module.
